21st October 2022

Continuing our Learning Journey...

The children have been enjoying our Autumn topic this week.

On Monday, we explored the woodland area and found some bright and colourful leaves for our Autumn Sensory Tray.

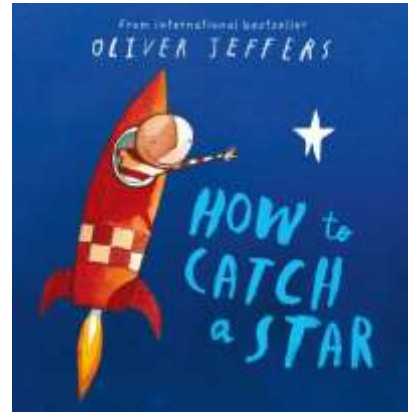

We have been doing some leaf printing and rubbing, made fork print hedgehogs, constructed hedgehogs with salt dough, did some mark making in sand and counted out spikes on the hedgehogs.

We had fun playing Autumn Snap and finding matching halves of Autumn pictures. The children constructed leaf crowns, created Autumn collages, made leaf people and explored the painting programs on the Ipad.

After Half Term

After half term, we will be talking to the children about Firework Night. Our story focus will be: *How to Catch a Star* by Oliver Jeffers.

We even had time to do some leaf and animal threading, read Autumn stories in the library and engage in Autumn movement activities outside on the field.

Information for Families

Our week long half term begins on 24th October.

We hope you have a wonderful half term and will see you on Monday 31st October. Many thanks for your continued support.
The Nursery Team
