

YEAR 5 LEARNING LETTER 17/11/23

We returned to writing this week. We retold a scene from a character point of view using the 'third person'. We reviewed the punctuation of direct speech and wrote an imagined piece of dialogue for a scene from our story. We have tried to use different structures and types of sentences to create effect.

We had a great S.T.E.M day on Tuesday. We learned about rockets, designed rockets, built rockets and tested rockets. We also designed a sustainable flying machine for the future.

We investigated rivers. We thought about what a river actually is. We attempted to sequence pictures and then learned about some natural features of rivers. We also reviewed the water cycle.

We have been practicing recognizing and calculating equivalent fractions. We also met improper fractions and mixed numbers trying to convert between the two.

GEOGRAPHY

English

ART/DT

This Week

Maths

Computing

SCIENCE

We experimented with different camera angles, considering how different camera angles can be used for different purposes.

We used different methods to separate mixtures of materials using the properties of materials to help us select the correct method.

Looking Forward

Ambassadors

Ben & Skyla

Who consistently add thoughtfully to discussion in RE and produce good quality outcomes

We also said a farewell to Victoria this week. We wish her all the best. A great ambassador.

Next Week -Finally it is here –

SAYERS CROFT

On Wednesday, please arrive at normal time. Come in the front entrance with your bags. Please hand any medicines to Mrs Carter. We aim to leave about 9:30. We aim to be back about 2:30 on Friday.
