

# Year 2

## Learning Letter

Ongar Place School, Addlestone, Surrey 01932 842785

Friday 12th January 2024

We have jumped right back into it this term and have already started some wonderful activities. The weather is starting to feel even more wintery and we are just about getting over the excitement of seeing a few snowflakes this week. Last week, instead of a newsletter, you should have all received a copy of the spring overview. This will tell you all of our new topics across all subjects. We also have other curriculum information available on the school website.

### Forest school

It has been wonderful to ease ourselves back into the school term with forest school. It is an excellent experience for the children and is great to see them so content and happy to be learning outside. The children have been coming out very muddy but luckily have been wrapped up well so that they are able to enjoy every moment, despite the cold. Thank you to all parents that are helping and making it possible. Tea and biscuits are always here for our volunteers.

### Perform Drama

This week Perform Drama came in and ran a workshop for the children. Great fun was had by all. Please see the leaflet if you are interested in signing up.

### Ocean Meets Sky

Our new class book for the next few weeks is 'Ocean meets Sky' by The Fan Brothers. This week we received a very special box labelled 'Grandpa's stuff'. We used these interesting items to help us to gather information on the character in the story.

### Shape

We have started our new topic. Children have had a great time exploring shape and learning a lot of new vocabulary.

### Edward

For reading and ordering the days of the week successfully. Well Done!
