

YEAR 6 LEARNING NEWS

Highlights of the Week

This week we have continued our work on the book *Wonder* and the children have started to design their own masks to show their character and personality.

In history we are finding out about the Ancient Greeks. We have been looking at how Alexander the Great developed his empire and the impact this had on different groups of people and the world today.

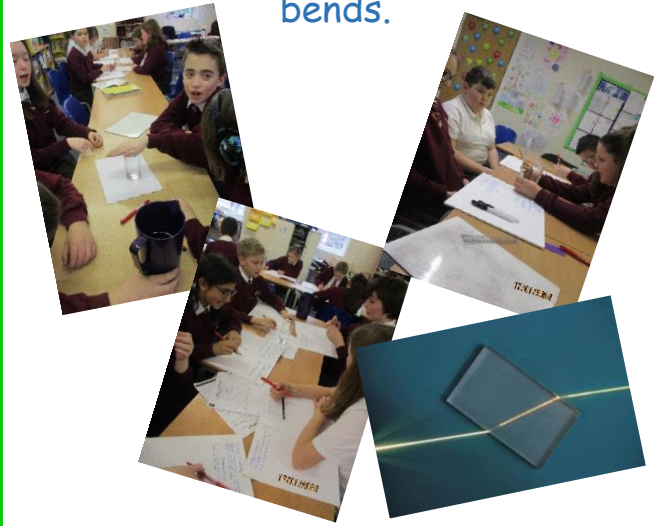

I am so proud of the whole class this week with their positive attitudes and achievements in maths. They have been introduced to ratio and everyone has worked hard and understands the link between ratio and multiplication and fractions.

Dodgeball

Well done to all the children who go to dodgeball club on Monday evenings - their behaviour and sportsmanship has been highly praised.

Issue No 2 Spring Term
19th January 2024
01932 842785

Science has been really interesting. We have learnt about refraction. This is how light bends when it travels into different mediums. The light slows down or speeds up and bends.

Information for Parents
