This week in Beech Class...

English

This week the children have produced beautiful display copies of their Stone Age Boy stories. I was very impressed with their neatness and attention to detail.

Maths

In maths, we have started to look at Length and Perimeter. The children have learnt about millimetres, centimetres and metres—and the relationship between them. They have also learnt to select the appropriate unit of measure to use in different circumstances.

PE

We had good fun in cricket this week playing games that involved batting and fielding. The children talked about the importance of sportsmanship, as well as listening to and following instructions.

History

In history, the children looked at stone age artefacts and tried to guess what they would have been used for. We had some strange guesses as well as some quite accurate ones
