This week in Beech Class...

What a start to the half term! Thank you to all the parents who attended the Parents Evenings this week. It was lovely to meet you.

Maths

We have started a new unit in maths this week. We are now looking at fractions. On Monday we started to learn about unit fractions and we are now able to understand non-unit fractions and how fractions combine to make a whole. The children have learnt about numerators and denominators and how a smaller denominator means a larger fraction and vice versa.

English

In English, we are looking at personal recounts this week. The children have learnt about the structure and language features of recounts and they have started to plan and write a recount of something that they did in the half-term holiday.

French

This week Beech Class have started to learn the colours in French. Where possible we have made links to English words that will help us remember the vocabulary.

STAR OF THE WEEK

Oliver -
for great work on adding fractions to make a whole.
