

# Year 2

## Learning Letter

Ongar Place School, Addlestone, Surrey 01932 842785

Friday 3rd May

*What a fabulous week! I feel like we have finally seen a glimpse of summer. This week we have been able to work with the doors open wide and have even enjoyed a few lessons outside, learning on the field in the fresh air. What a treat; I think we have spent more time outside than in! Hopefully the hot weather is just around the corner, please remember to send children in with water, sun hats and rain coats! Who knows what this English weather will bring?*

### RE

This week due to the beautiful weather we did our learning outdoors and we sat on the grass and had a group discussion about the ways Muslims prepare to speak to Allah.

### Swimming

We were fortunate to have the most beautiful sunshine during our swimming lesson.

### Science

This week we surveyed the school to find out which types of plants we had. We used a clever app that scanned plants and told us whether they were healthy or not. Interestingly we found hundreds of different species including; bamboo, blackberries and different trees.

### Computing

We are still exploring Chrome Music Lab and having a wonderful time making our own music. We listened to 'Neptune' by Gustav Holst. We draw pictures about how the music made us feel.

### Important Dates

Monday 6th May- Bank holiday  
 Wednesday 22nd May- Year 2 Class Assembly  
 Friday 24th May- Break the rules day.

**Rae**

For having a positive attitude and perseverance in our fractions unit.
