

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

7th February 2020

Learning Journey

In computing this week, we learned to use some more of the codes in Scratch. We made our characters move in different directions and created speech bubbles so that the characters could talk to each other. We also continued to add information to the presentations we had created using PowerPoint.

Over the past few weeks in our dance sessions, we have been learning about traditional Inuit dances. The dances are often based on stories about the arctic and we have been working in groups to create our own dance sequences.

Star Learners

Chloe and Rudi were able to follow instructions to independently save and retrieve files. They were also able to help others move between different programs.
