

Highlights of the Week

In Science this week, Year 5 explored the difference between reversible and irreversible reactions. The children discussed what each term means and then carried out a range of practical activities to test whether certain changes could be reversed or not. They really enjoyed investigating for themselves and were able to explain clearly which reactions were reversible and which were irreversible. It was a fantastic, hands-on way to deepen their understanding of materials and chemical changes!

Information for Parents

- Pupils should be reading daily for 30 minutes and also practising their times tables on TTRS.
- Friendly reminder - pupils should be coming to school with basic writing equipment such as a blue/black pen.
- Homework is set on Thursday and due in the following Monday.
- Chewing gum is not permitted in school. It will be confiscated and only returned to parents.
 - Parent workshop to explain how accelerated reader works - 21st October 9am
- Break up for half term - 24/10/25
Return to school - 4/11/25

Week 5 Autumn Term
3rd October 2025

In English this week, Year 5 had great fun taking part in a conscience alley activity, where they stood in two lines and gave advice to a crew member using modal verbs. The children really enjoyed stepping into character and practising persuasive language in this interactive way.

We also reached the end of our class book 'King Kong' and worked on summarising the key scenes. The children produced fantastic summaries that were clear, to the point and beautifully illustrated. These are now proudly on display in the classroom for everyone to enjoy!
