

YEAR 3 WEEKLY LEARNING

Autumn Term

Science

This week in Science, the children began their new topic on Forces and Magnets. They explored the different types of forces, focusing on push and pull. Through hands-on activities and discussions, they discovered how these forces make objects move in different ways. To apply their learning, the children designed their own toy, deciding whether it would use a push or pull force to work. They enjoyed being creative while showing their understanding of how forces are used in everyday objects.

Important Messages

Dates

Mondays and Thursdays - PE day
(please send your child to school dressed in their PE kit)

Friendly Request

Please ensure that children regularly practice their times tables on TTRS (Times Tables Rock Stars). Additionally, please continue reading with your children daily, as this greatly enhances their comprehension skills.

Achievements

This week achievement certificate has been awarded to:

- **Oaahi** for showing great determination and effort in her everyday learning.
- **Scarlett** for demonstrating wonderful passion and confidence in everything she learns.

Congratulations on your exceptional dedication and hard work!
