

Year Two Learning Letter

Ongar Place Primary School, Addlestone, Surrey 01932 842785

6th March 2020

Learning Journey

We have had a great week! We have started writing the script for and practising our assembly.

In English we compared the way wolves are portrayed in different stories. We considered the reputation wolves have for being 'big and bad' and talked about whether this was fair.

We also researched the history of wolves to find out why they no longer live in the UK.

In Maths we have continued to investigate fractions by exploring what the numerator and the denominator represent in a fraction. We practised finding unit and non-unit fractions and discovered that when the numerator and the denominator are the same, the fraction is showing a whole.

Information for Families

Thank you for all the support you gave children in completing their projects. They are fantastic and we have enjoyed sharing them in class.

Friday 13th March

Infant Music Festival at Jubilee School

Wednesday 18th March 9.15am

Class assembly

Friday 27th March

Birdworld trip

Star Learners

Elexa-Rose, Sadie, Chloe and Molly-Rose worked together to produce a factsheet about the history of wolves in Britain. Well done!

World Book Day

Today we celebrated world book day. Everyone looked very cosy in their pyjamas and we spent the day sharing stories and completing lots of book related activities.

In assembly we had great fun listening to some of the teachers read out extracts from stories and trying to guess with the rest of our house what the story was and try to remember the author.
