Issue Number 13
Friday 16th January 2026

Continuing the learning journey...

We have observed lots of lovely role-playing, turn taking and communication in the 'Vet' role-play area. Thank you for supplying soft toys to enhance this area for the children.

This week's learning...

- We have been subitising to five and adding and subtracting in maths.
- The children really enjoy using the 'creation station' to make models. If you have any small boxes, clean lids etc to add to this area please send them in! Also, any craft making items would be appreciated, we never say no to anything which might enhance our provision in class!

Next Week

Little Wandle assessments and encouraging the children to write independently.
