

YEAR 3 WEEKLY LEARNING

Autumn Term

Feet First Training

After completing an online road safety course, the children had the opportunity to take part in the Feet First course. Supervised by adults, they walked a route close to the school, where they were taught vital pedestrian skills to support safe walking to school and independent travel. The course combines digital classroom modules, practical on-road training with qualified instructors, and at-home activities. Together, these elements promote active travel, improve road safety awareness, and help to reduce congestion around the school. The children did a fantastic job recalling and applying their previous online learning and were highly praised by the course leaders for their focus and positive attitudes.

Maths

This week in Maths, the children began a new unit on Length and Perimeter. They first learned how to measure accurately in centimetres, before progressing to millimetres. Later in the week, they combined both units, recording their measurements using centimetres and millimetres together. The children were encouraged to use rulers carefully, read scales accurately, and check their work. They had many opportunities to apply these skills through practical, hands-on activities, measuring classroom objects and comparing lengths. This helped to develop their confidence and understanding of real-life measuring.

Important Messages

Friendly Request

Please ensure that children regularly practice their times tables on TTRS (Times Tables Rock Stars). Additionally, please continue reading with your children daily, as this greatly enhances their comprehension skills.

Dates

10th and 12th February - Parents evening

Achievements

This week achievement certificate has been awarded to:

- Mollie S. for working hard, staying on task, and doing her best respecting adults and peers.
- Prenav for showing kindness to others and for being a positive role model in the classroom.

**Congratulations on your
exceptional dedication and
hard work!**
