

Year 2 Learning Letter

Ongar Place School, Addlestone, Surrey 01932 842785

Friday 6th February 2026

Forest school

This week the children were lucky enough to light the fire pit and enjoy toasted marshmallows.

Next half term we will be completing a sewing project. Children will need to bring in a pillow case or a piece of fabric of similar size! We will be making capes.

Dates for your diary

Tuesday 10th February &
Thursday 12th February
Parents evening.
Friday 13th February
Last day +
cake sale after school.

We have a forest school session next week to make up for a session we missed previously.

Next week will be our last forest school session!

DT- Moving pictures

We have finished making our moving pictures. Thank you to everyone who came to see our work in the gallery. We managed to produce some great moving pictures.

Well done to Harry who made more moving pictures at home!

A fantastic sliding mechanism.

A wonderful wheel mechanism

Numbots & TTRS

We have noticed that children are not using Times Tables and Numbots as often as we would like. Numbots is a great way for children to secure early number and have a good understanding of how to problem solve. I have set a target to complete 12 minutes a week and unfortunately not even half the class are consistently achieving this. Some children have chosen a prize for their efforts. Next week, I am hoping for everyone to hit the target to give the class some pebbles.

Walter

For locating the North and South pole in the atlas.

Kady

For using a key in an atlas to find out more information.
