

# Ongar Place Nursery News

Ongar Place Primary School, Addlestone, Surrey, 01932 842785

Friday 17<sup>th</sup> April 2026

## Nursery Activities and Play

Welcome back for the final term of the year! The children have settled back extremely well and we are looking forward to a new term of learning.

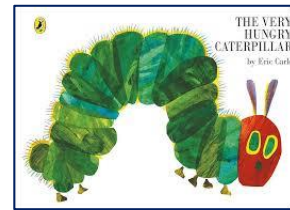

### Willow Class' caterpillars

We have some new members of Willow Class - five very tiny caterpillars! We are looking forward to watching them grow and change over the next few weeks, just like the caterpillar in our book.

## Book Focus

We are enjoying reading the book 'The Hungry Caterpillar'.

If your child is due to start school in September, they will have now received a school offer. We will be in contact later this term with details of transition activities for children who will be joining our Reception class at Ongar.

If your child is staying with us in Willow class in September and you would like to increase their current hours, please see Mrs Hall in the office to check availability for next term.

## Information for Families

### Mini Marathon

As you are aware, children across the school are taking part in a 'mini marathon' next week. The course that the older children will be running is not suitable for our nursery children but we will be joining in with an adapted route across the week, supported by some of the older children. We will hold a few separate events, so children do not need to change sessions and where appropriate, we will involve older siblings in supporting the children. There is no expectation for children to run a particular distance, rather our focus will be on having fun and beginning to understand the concept of acting to support an important cause.
