

YEAR 4 WEEKLY LEARNING

Ongar Place Primary School,
Addlestone, Surrey 01932 842785
09.10.26

Our Values: Teamwork, Self-belief,
Honesty, Passion, Respect &
Determination

Happy Friday everyone!

This week, we have started our maths unit on addition and subtraction. Children have been using place value counters to show additions with exchanges, to help their understanding of how they present the formal written method.

We have continued to read *The Iron Man* and this week, our sentences have involved a relative clause, prepositions and a cliffhanger!

Another experiment was on the cards in science this week as children explored condensation by setting up an experiment to allow them to see it in action using a container, some cling film and an ice cube.

In art, children again composed a piece of still life, as part of a group, and then sketched and painted their work to reflect their understanding of light and dark, using tints and shades.

In history, children learnt how the Anglo Saxons ruled Britain as a heptarchy. They learnt that the names and symbols used by the Anglo Saxons are still used today around England.

In RE, the children reflected on the 10 commandments God gave Moses and looked for connections between them and our school values.

In PSHE, we discussed the importance of both mental and physical health and ways we can be active across our days.

Wishing you all a lovely weekend, Miss Hale
