

YEAR 4 WEEKLY LEARNING

Ongar Place Primary School,
Addlestone, Surrey 01932 842785
16.10.26

Our Values: Teamwork, Self-belief,
Honesty, Passion, Respect &
Determination

Happy Friday!

It's hard to believe we are already half a term down in Year 4, but we haven't taken our foot off the pedal this week! Still plenty of learning going on. It was lovely to meet many of you this week at parents' evening.

We were very fortunate on Wednesday to take part in a STEM workshop. Children worked in groups of 3 and took on challenges such as building rockets and parachutes. It was a really fun day as children competed to make the highest-flying rocket or the safest parachute. Our success rate was incredible in the parachute challenge and we took the title as the most successful school to date!

This week in English, we finished reading *The Iron Man*. The children also edited all the sentences they have worked on this term and then used them to write their own version of the opening of the book.

In science this week, children explored the water cycle and how the water on the planet is in a continuous cycle as it changes states between solid, liquid and gas.

Children have been using maths manipulatives this week to make links between subtraction on the place value mat and the formal written column method of subtraction.

In history, children learnt how Anglo Saxons ruled there are within the heptarchy. They learnt how there was often fighting between the regions and that there was a clear class system.

Wishing you all a restful weekend,
Miss Hale

Important Messages

Swimming has now finished for the year. Our PE day will remain on a Wednesday, therefore children need to wear their PE kit to school on Tuesdays and Wednesdays next term.
