16th October 2026

Dear Parents

Incredibly we have come to the end of our first half term of the year. It has flown by but we are all feeling a little tired as we have been so incredibly busy. There have been lots of exciting activities and today's Halloween dress up has rounded off our term beautifully. I wish you all a lovely two-week half term. We will see you back in school on Monday 2nd November at 8.50am.

Best wishes Mrs T L Good

Parents' Evenings

Thank you to everyone who came to Parents' Evening. I hope you found your meeting with the class teacher informative.

The more we work together to benefit the children in our school the more they thrive.

Secondary School Applications

If your child is in Year 6 you need to apply for a secondary school place by the 31st October 2026. If you do not apply and express a preference you risk not getting a place in the school of your choice

INSET DAY

School will be closed to children on Monday 4th January 2027 for an INSET day. Our other INSET days this year are 26th, 27th and 28th of July 2027.

STEM Day

The children had a fantastic time during our STEM Day today. They worked collaboratively in groups to design and build their own rockets, which we later took outside to launch and see whose rocket could fly the highest. There was lots of excitement as we watched the rockets fly into the sky! Later, the children put their engineering skills to the test by designing and making parachutes to help carry an egg safely to the ground. There were plenty of screams of excitement as we watched the parachutes descend and discover whether the eggs had survived their landings!

It was wonderful to see the children working so well together, sharing ideas, solving problems and using their creativity to overcome challenges. Everyone had a brilliant day filled with hands-on learning, teamwork and lots of fun. Well done to everyone in Year 4 and 5, for being such enthusiastic young engineers and scientists!
