23rd April 2021

Continuing the Learning Journey!!

I hope you had a lovely and restful Easter break.

Aspects of learning:

- During Read, Write Inc we have been writing simple sentences.
- Some children read to our school dog Amber and all of the children read to me! Both Amber and I were suitably impressed ☺
- In PE the children pretended they were driving cars and had to navigate space considerately. They then had a formula 1 race!
- Mrs Mount and Mrs Denyer have created a wonderful superhero role play area. The children are having great fun dressing up and acting out different scenarios.

Focus on Learning

Next week we shall be learning about time and using clocks.

We have an 'Estimation Station' in class. The children have to estimate how many items there are in a jar. The child who is closest to the answer takes Chester Bear home for the weekend. He has been washed and quarantined!

Class Star Learner

Riley-James
For being a wonderful friend and taking care of others

Information for Families

Thank you if you have paid cooking money or offered to help with our swimming lessons, I really appreciate it. Swimming begins next Thursday morning and is part of the National Curriculum so all children have to take part. It is a lovely (very shallow and warm!) pool and the instructors are patient and experienced. The children will be grouped depending on their ability and confidence. Any questions please don't hesitate to ask.

Many thanks,
The Chestnut Team
