

YEAR 4 WEEKLY LEARNING

Ongar Place Primary School,
Addlestone, Surrey O1932 842785
Issue Number Nine
13th May 2022

Summer Term

Jubilee Preparations/ Collaging:

In preparation for the Queen's Jubilee celebrations, each class has created their own hall displays; incorporating elements of their current learning. The children are really enjoying, and proving very good with collaging. Please see their fabulous work below!

English:

In Year 4, we have started to read 'The Tin Forest'. So far we know that there are themes of nature, hope and care. We only know that an old man lives in a small house surrounded by litter and rubbish, yet he is determined to make good of it. Consequently, we produced leaflets to educate people on saving our world and also letters pretending to be Estate Agents, trying to evaluate his property.

Our Values: Teamwork, Honesty, Self-belief, Determination, Passion and Respect

STAR LEARNER

Star learner has been awarded to **Poppy**. **Poppy** has completed some fantastic writing pieces this week; from an evaluative letter to an informative leaflet. She included the appropriate features for both. Well done, **Poppy!**

Important Messages

Everyone would have received a plaque reveal tablet today after school. This is to aid them with their experiment. This must be done with an adult present. The children have been spoken to about completing with a parent. This will help with our upcoming teeth Science lessons. The task and tablet instructions will be outlined on Seesaw, and you will see images of the product packaging. Do not complete the experiment if you cannot access the instructions on Seesaw. It is important that you read it correctly. The home learning should be completed by 17th May. If you have any questions about this, please come and see me.

Dates:

- 23rd May- Assessment Week
