

YEAR 3 WEEKLY LEARNING

Ongar Place Primary School,
Addlestone, Surrey O1932 842785
Issue Number 10
06th December 2019

Our Values: Teamwork, Honesty,
Self-belief, Determination, Passion
and Respect

Focus Learning

In Maths, we have transitioned from finding fractions of amounts onto money. Firstly, the class had a lovely discussion on where money comes from; pocket money; what we can buy with certain amounts and if there is anything money cannot buy. Then, we engaged in different activities that assessed our understanding of adding, subtracting, ordering and problem solving-in connection to money.

The children are really enjoying their computing lessons. They have been able to use coding to create animation and movement, but now we have moved onto using coding for life. It aims to teach children the basic principles of coding, at their own pace as they can move up levels when they are confident in that area.

This week, we have been working really hard on our singing for the carol concert. Alongside the rest of KS2, we have been ensuring we all know the words and feel confident for our performance. We all hope you can come and watch!

A few members of Beech class had the opportunity to go to the Chelsea excel centre to take part in some outdoor activities. They had a fantastic time and all came back with smiley faces and a medal each.

Star learner

Our Star Learner this week is Sophia. D for her self-belief towards completing all of her money addition questions. Well done!
