10 June 2022

Continuing our Learning Journey...

The Jubilee celebrations were just wonderful! The children enjoyed all of the week's activities, especially their 'street' party on Friday.

A few weeks ago the children planted grass seeds and strawberry plants, now they have started to grow! Not only are the children using the real grass in the small world play area they are having the delicious strawberries for snack time!

Geography Week

The children have been busy learning about maps and the geography of the school and neighbourhood. They made their own ladybirds after listening to the story 'What the Ladybird Heard'.

Next Week

Next week we are learning about the environment and the impact of plastic pollution in the sea.

Our story focus will be 'Somebody Swallowed Stanley'

Information for Families

A gentle reminder to apply sun cream before school. A hat for outside is required (please label them!) and a bottle of water will be needed for each session.

Many thanks for your continued support
The Nursery Team
